from Medford

Advice About Rock Gardens

We are glad to help with any problems at any time, and can heartily recommend "My Wild Garden" and "Taming the Wildling" by Herbert Durand, and "The Rock Garden" by Louise Beebe Wilder, as best authorities in Eastern United States.

For information as to the value for garden use of western native plants, read **Western American Alpines,** by Ira N. Gabrielson. If you would like to climb our mountains and see our lovely wildlings in their homes, but cannot do so, take a trip at second hand with Dr. Gabrielson. You will find him most delightful company, and through his appreciative eyes will be able to enjoy and estimate them at their best. Order from me. Price \$3.50.

"Rock Garden and Alpine Plants," by Henry Corroven, of Switzerland, is undoubtedly one of the best in the world, and at the new low price should be had by all. Price \$3.00. Order from me.

Oregon Wild Flowers

Seeds—Seeds of many varieties can be furnished at 25c per packet. In ordering seeds, please list some substitutes that may be sent in case of shortage. Plants in this list are so rare that the supply is uncertain.

Numbers (00) indicate height by inches.

The price for a dozen is ten times the price for single plants. Half dozens are sold at dozen prices. All are packed free of charge, and post-paid.

Native Plants Suitable for Dry Garden in Sun unless Otherwise Stated.

	Each
Anemone Deltoides , purest white colors for shade	.15
Lyalli , many delicate colors in shade.....	.15
Occidentalis , chalice cup, milk white flower, plumy seed-head and nice ferny leaves.....	.50
Oregana , for deep shade and acid soil, white with three tints. (6)40
Pulsatilla , purple pasque flower35
Achlys Triphylla , Sweet after Death, not showy	.25
Abronia Umbellata , sand verbenia, pink creeper..	.25
Aquilegia Formosa , (18) Scarlet and gold colum- bine25
Arabis Lyalli , pink flower, best in shade.....	.25
Purpureus (6) extra nice plant, pink flower	.25
Armeria Artica , Sea Pink, deep rose.....	.25
Calandrinia Umbellata , for very dry situations, flower a wonderful color25
Calypso Borealis , fairy slipper, with soil to plant in25
Bulbosa , same as above25
Campanula Scouleri , (4) very light blue lily shaped flower25
Castilleja Mineata , (6) scarlet Indian Paint Brush	.15
Cleome Nemorosa , (16) pink. Seeds only15
Clintonia Uniflora , (3) pure white Queen's Cup....	.15
Dentaria Tracyii , (5) Milkmaid's flower, purple spotted leaves, very early bloomer.....	.15

Californica, white with round dentate leaves	.15
Macrocarpus, larger form from the Siskiyou mountains	.25
Delphinium Nudicaule, (18) red	.20
Columbianum, (5) purple	.15
Dicentra Formosa, plummy bleeding heart, beautiful foliage	.15
Oregana or Glauc, silvery leaves and cream flowers with purple tips	.50
Douglasia laevigata, cutest alpine	1.00
Digitalis, (4 to 6 feet) Fox Glove, many colors	.25
Dodocatheon Alpina, (6) prefers moist situation	.50
Hendersonii, (6) a beautiful rose to crimson primulacae, blooming very early in the spring. Good in the rock garden	.15
Jeffreyii (12) a later bloomer called Sierra	
Shooting Star, light pink	.25
Epipactus Gigantea, for moist shade	.20
Erigeron Radicatus, (2) deep blue or purple, free blooming	.35
Compositus Var. trifidus, (4) white flower	.35
Folicosus var. compositus, (6) light blue	.25
Salsuginosus, (10) large Alpine daisy	.25
Glaucus, very dwarf, large flowered	.25
Species from the coast, covered with large blue flowers in autumn, similar to Michaelmas Daisy	.25
Evening Primrose, see Oenothera	
Eriogonums are fine for the rock garden. Dry situation. Seeds best as they are hard to transplant. Flowers are in clusters and dry perfectly for winter bouquets. Dry sunny sit.	
Compositus, cream white in four to six inch clusters. Seeds only.	
Douglasi, yellow flower. Plant, a fine, thick, neat, gray white foliage. Seeds only.	
Nudum, (18) white flower on slender stem	.25
Sulphureum, same but yellow	.25
Umbellatum, (6) large yellow flower	.25
Species variety of above, red flowers. Seeds only.	
Ovalifolium, (3) everblooming alpine pink	.50
Species. Wild Pink Buckwheat, a beautiful late annual. Seeds only.	
Eriophyllum	
Janatum, green foliage, white beneath	.25
Ceaspiocum, (8) Oregon Sunshine, yellow flower, white foliage	.15
Species, (4) felty white foliage, Alpine	.50
Erysinum aspernum, (12) Western Wall Flower, yellow	.15
Ferns	
Very dwarf ferns suitable for rock garden. The roots should have a nice pocket of soil well protected by a large stone to conserve moisture and thus they will face full sun.	
Chelianthes Gracillima, (5) lace fern, dainty, clump	.25
Cryptogramma Acrostichoides, (3) parsley fern	.25

Gumnogramma triangularis, (3) gold fern....	.25
Pellaea branchypteris, (6) evergreen fern, like a sprig of fir35
Woodsia Oregana, (5) very dainty and fra- gile. Dries down in summer, reappearing in early spring15
Lomaria Spicant, the Deer fern for moist shade25
Pellaea densa, the daintiest and also the hardiest dwarf fern25
Filix-fragilis, a delicate little beauty, a bit larger than Woodsia Oregana15
Polypodium Occidentale, licorice fern, pre- fers a mossy stone for a home.....	.15
Larger Ferns	
Polyystichiums Lonchitis, Holly Fern, a love- ly evergreen fern for shade only.....	.50
Polystichum Munitum, large sword fern.....	.25
Polyystichum imbricans, small sword fern for dry rock garden25
Dryopteris Argusta, (18) evergreen shield fern25
Asplenium felix-foemina, lady fern, moist shade. Each25 .50
Woodwardia Radicans, great chain fern, very large, requires moisture and shade. Each25 .50 1.00
We have many other nice ferns not yet classified. Write us your wants.	
Fragaria, wild strawberry from beach, glossy leaves, red runners, nice berries.....	.15
Wood strawberry, large flowers.....	.15
Gentiana Affinis, a very nice little gentian with very dark blue flower, freely borne, moist soil35
Species, probably variety of above. Large, free-flowering, for dryer soil. As many as eight large striped upturned bells open at one time50
Gilia pungens, white flower opening at night.....	.50
Aggregata (6-18), scarlet flower, nice plant, free flowering15
Goodyera Menziesii, mottled green and white leaves, shade15
Gormaniana Watsoni or obtusatum (6) white flower, a plant very nearly related to the Sedums and as good for dry or moist rock work....	.25
Rhodiola, or laxa, red flowered. Plant very nice35
Hesperochiron pumilus, a tiny white-flowered damp-lover. Blooms very early.....	.25
Heuchera micrantha (12), spray of white flowers, begonia-like leaves which color nicely.....	.25
Glabella, green leaves, good for dry rock work25
Iris —Our natives are fine but not easy to grow. Seeds of all.	
Bracteata (8), white to yellow; very fine shaped large flowers, dwarf plant.....	.25
Douglasiana, in most beautiful shades of blue and lavender. One of the loveliest irises we have ever seen.....	.25

	Each
Albright, just as yellow as Innominata and more dwarf	1.00
Chrysophylla, a very dwarf white, fine in rock garden25
Innominata—This is an improvement on the lovely Bracteata, a deeper yellow and equally fine shaped flower.....	1.00
Macrosiphon, yellow with deep green foliage35
Missouriensis (16), blue flower.....	.25
Tenax (8), many lovely colors in mixture.....	.35
Tenax, same in deep purple. This is our best native iris; flowers similar to Siberian but more freely borne; plant more dwarf.....	.25
Species, very narrow foliage.....	.50
Californica, variety of colors.....	.25
Leucocrinum montanum , pure white sand lily, clump40
Lewisia —The evergreen varieties are often listed as Orebroma and include all except rediviva and oppositifolia. These are our very best rock garden plants requiring good drainage and full sun, but not south exposure in California. Roots should have good protection under large rocks, and no irrigation. Coarse sand or broken rocks around the plant on surface to prevent damping off.	
Eastwoodiana, a rare new variety with pure white flower resembling Columbianum in foliage and flower.....	.50
Columbianum, has narrow leaves and small flowers. This bloomed the whole summer and fall in my rock garden. Flower white25
Columbianum var. rosea. Pink25
Cotyledon, slender leaved rosette and white flower, veined pink25
Finchii, one of the best. Have counted over five hundred florlets from one plant in a season. Striped pink flowers.....	.50
Nye's new variety of Finchii, still larger with a clear pink flower50
Hecknerii, a fine new one with saw-edged leaves; flower pink striped with white.....	.35
Howellii, leaves of the rosettes, ruffled and crested, flower deep rose striped with white35
Ingramii, a variety of Howellii, equally good35
Leeana, a narrow-leaved evergreen with a spray of fine magenta flowers.....	.25
Tweedyii, largest and one of the loveliest. Full sun, best drainage around crown. Very long blooming, large.....	1.00
Medium .75 Small .50	
Redviva (3) Bitter root; state flower of Montana. This is a fine large showy flowered dwarf, hardy in any section of the U. S. A.15
Oppositifolia (5), similar to rediviva, with smaller white flower. Both die down in summer15
New Varieties —The following are offered as new, as far as we know:	

Richeyi, a new dwarf variety of oppositifolia. Flower stems short and more free flowering. Usually pure white; likes moisture until blooming time.....	.25
Mariana, is of the evergreen rosettes variety, foliage dark in color, flower yellow and white with some pink, very striped. It is almost everblooming with me.....	.50
Crenuata, a dwarf variety of Howellii with a fine ruffling all along the leaf and the same light creamy pink to white flowers as the following.....	.50
Howellii, new variation of our own finding, white to cream-pink flowers on long stem; foliage very ruffled. A very large handsome plant50
Lewisia Species, new ones not quite the same as any above but differing too little for names25
Lewisia Species, fine distinct new ones not yet named. While they are in stock.....	1.00
Linum, Lewisii, wild flax with deeper blue flower than L. Perrene (20)25
Linnaea Borealis var. Americana, Twin Flower. Vine15
Lupinus Lyallii (4), the tiny gray-leaved Alpine which blooms the whole season. Seed is best35
Minimus (9), very free blooming.....	.15
Ornatus (12), silver-leaved lupine.....	.35
Tall varieties in mixture; seeds only.	
Lutkea pectinata (4), make a lovely green mat in a moist spot in rocks. Spreads quickly35
Monardella villosa, a free flowering mint (7).....	.25
Micromeria Douglasii, vine with scented leaves; nice in the rock garden.....	.15
Mertensia laevigata, a large blue bell.....	.35
Montia parvifolia, dainty white flower, always in bloom15
Oenothera tricalyx, Desert Primrose; opens pure white and changes to pink. Sandy alkali soil, well drained in sun.....	.30
Sun cups; day blooming; yellow.....	.15
Hookeri, tall, large flowered yellow Evening Primrose25
Paeonia Brownii, (8) our only native peonia and a dwarf adapted to a rock garden; large red flower50
Penstemon Azureus (8), a lovely flower freely borne35
Cardweillii (6), shrubby creeper, very free blooming, flower brightest blue.....	.50
Glaber (8), large flowers of beautiful blue, pink throat; free blooming Alpine.....	.50
Laetus (12), rather dark blue, nice in border as well as in rock garden.....	.15
Menziesii (4), shrubby creeper, blue.....	.35
Rupicola (6), gray-leaved shrubby creeper; rose crimson flower; very nice.....	.35
Centranthifolius (24), Scarlet Bugler.....	.50
Davidsonii, small form of Menziesii.....	.50
Fruticosus (8), pink. A lovely one from E. Washington. Fine in the sun.....	.50

Blue Bender, fine free blooming blue variety (14)35
Procerus, same as confertus, variety caeruleo-purpureus; blue flower on upright stems (12)25
Tolmei (4), blue-flowered dwarf, forms mats covered with flowers.....	.50
Roezli (12), bright blue flower on upright stems. For dry rocks.....	.25
Penstemon Species (35), a fine tall plant, nearly all flowers, of a beautiful blue.....	.25
Phlox Adsurgens (5), evergreen creeper with fine pink flowers25
Speciosum (8), upright grower with nice flowers35
Douglasii, flat mats covered with flowers of pink, lavender or light blue.....	.50
Hoodi, similar with white flowers.....	.50
Polemonium Carneum (19), peach pink, very pretty35
Occidentale (18), blue blue.....	.35
Species (6), mumile or similar blue35
Ranunculus glaberrimus (4), sagebrush buttercup, brightest yellow flower on very dwarf plant25
Californicus (12), very early bloomer.....	.15
Occidentalis, deeper in color, less weedy (6)15
Romanzoffia Californica (6), for mossy moist rocks15
Saxifraga Mertensiana (6), moist shade preferred. White15
Tolmei (2), makes a lovely green mat with lots of small white flowers. Alpine and requires moisture and full sun. Found at the foot of glaciers. Seed only.	
Sedum divergens, forms flat mats; very nice; annual25
Jepsonii (8), for dry rock work; white flower large25
Purdyii (2), dense rosettes spreading by red thread-like runners. Bright yellow flowers25
Spathulifolium, whitish rosettes inclined to color nicely. Yellow flower (3). Good in sun15
Nevadaensis (5), a nice grey one.....	.35
Brevitifolium (1), tiniest grey foliage.....	.35
Oreganium, flat green rosettes from Pacific coast of N. Oregon25
Oreganium from mountains of interior Oregon25
Oreganium from Washington state.....	.25
Woodii, bright yellow flower.....	.25
Sedum species, six distinct varieties not listed above, without names, for.....	1.00
Silene Ingramii, deep rose.....	.35
Hookeri (3), fringed pink, a nice long-blooming plant, considered by some good judges to be our best rock garden native. Salmon pink25
White variety of above.....	.35
Californica, scarlet flowers in late summer to frost35

Sisyrinchium , bellum. Blue-eyed grass.....	.15
Iridifolium, cream (24).....	.50
Californicum, yellow25
THREE	
Grandiflorum (10), a lovely flower of an undescribable shade between rose and purple25
Spragua umbellata , pussy-paws, grows flat on the ground, flowers white to red, watermelon scented15
Multiceps, many headed or rosetted. Turns a nice reddish color.....	.25
Synthyris rotundifolia (3), Hope o'Spring, Sleigh-bell, or Spring Queen, all names of a well-loved little blue flower which comes first of all15
Reniformis (6), more showy light blue flower. Both plants very nice and like shade.....	.35
Sweetseri, var. of rotundifolia with long leaves and deep blue flower.....	.35
Talinum spinescens , very dwarf plant for dry rock garden in sun. Flowers freely borne and very dainty pink35
Tellima odorata , (12) large begonia-like leaves....	.15
Tiarella unifoliata , spray of tiny white flowers, prefers moist shade15
Trientalis latifolia , pink star flower, a tiny primula15
Viola adunca , blue, very long blooming.....	.15
Blanda, tiny white.....	.15
Brooksii, yellow, dry rock garden.....	.25
Chrysantha or Douglasii, deep yellow.....	.25
Cuneata, one of the cutest violets. White with blue eyes and back.....	.25
Hallii, sweet-scented purple and cream. Our finest native violet.....	.25
Palustris, pink and lilac, for wet meadow.....	.25
Pedunculata, Yellow Pansy, a very fine deep color25
Nuttallii, Downy Johnny Jump-up.....	.15
Praemorsa, similar to above, but a paler color and less free-blooming.....	.25
Occidentalis, long-stemmed white, for water margin only25
Glabella, yellow15
Lobata, yellow25
Sarmentosa, creeping, yellow.....	.15
Sheltonii, cut-leaved, yellow.....	.15
Trinervata, a rare lavender variety from Eastern Washington35
Xerophyllum tenax , Indian Basket Grass, Squaw lily, Elk grass, the Eremurus of our high mountains. Rather hard to establish, but nice to have.....	.50
Zauschneria Californica , for fall delivery.....	.25

NATIVE BULB PRICE LIST

Bulbs of all kinds are best planted in the fall. The small bulbs can be supplied by Sept. 1, and the larger lilies by Oct. 15 or sooner.

Lillium Washingtonianum, a very fine white to pink lily. There are many variations of this lovely lily and the most common is called Mt. Hood lily. We can supply this

and the larger form called Washingtonianum Purpureum. Give them very excellent drainage50
Smaller bulbs30
Washingtonianum minor. Shasta lily, similar to above but with smaller bulbs and slender stems. Price, each.....	.30, .50 .75
Rubescens, the Redwood lily, white to purple, very fragrant40
Kelloggii, pink. Good.....	.75
Humboldtii, a splendid yellow lily; prefers well drained clay soil.....	.60
Humboldtii magnificum, even better; spotted with red75
Columbiana, a nice small yellow lily.....	.30
Roezlii, crimson, stem slender, leaves crowded; wet soil50
Roezlii, orange, similar to above.....	.50
Pardannum, closely related to the latter, but really finer. Stem taller, leaves larger and darker color40
Pariyi, a very nice yellow lily, requires moist soil; rare50
Bolanderi, a small deep red lily suitable for the rock garden75
Occidentale, extremely rare red lily; moist location	1.00
Seeds—We strive to secure all the seeds we can of these and other native lilies. Price per pkt. 25c. Prices on larger quantities on request.	

BULBS FOR THE ROCK GARDEN

Dry Soil in Sun Unless Otherwise Stated

	Doz.
Allium Acuminatum (6), deep red50
Falcifolium (3), large flower, bright red.....	.50
Mixed, many kinds and colors.....	.40
Brodiaea congesta (16), blue flower.....	.60
Coconea (14), the firecracker flower.....	1.00
Grandiflora (coronaria), harvest brodiaca. This hardy midsummer bloomer rivals the genians for color. A wonderful blue.....	.40
Lactea (12), white with green stripe.....	.50
Laxa, large blue flower.....	.50
Ixodies (6), yellow with purple stripe.....	.75
Camassia Esculenta (12), light blue wild hyacinth50
Leichtini (16), deep blue hyacinth.....	.50
Leichtini alba, white hyacinth (3).....	1.00

Calochortis are the wild tulip of the west and are more varied and charming than the tulips of Holland. They will grow well under almost any garden conditions and are excellently well adapted to the rock garden. Care should be taken to keep them from irrigation in late summer as they are naturally dormant at that time.

	Doz.
Calochortus Amabilis,, deep yellow globe tulip....	.50
Albus, white Fairy Lantern, very dainty.....	.50
Lilacinus, very dainty one without hairs, moist soil50
Howelli, white with green hairs and black eyes60
Maweanus, cat ears, pink with hairs.....	.50

Venustus Citrinus, yellow with black eye.....	.50
Venustus El Dorado, colors varied from white to deep claret red; the very best of the Mariposas60
Nitidus, hardy Mariposa from Idaho, lovely lavender, distinctly eyed (12-18).....	1.25
Macrocarpus, another hardy one, from Eastern Oregon; will stand 20 degrees below zero. Very tall plant, many lavender flowers	1.25
Vesta, huge white flowers usually tinted with many colors	1.00

Erythroniums are very easy to naturalize in woodsy conditions and are good in the bulb bed or the rock garden. They are a charming the lily and often but erroneously called Dog Tooth Violet. Herberd Durand calls the spotted-leaved varieties Trout Lily, and John Muir calls them Fawn Lily. Both names are good. They are not fussy as to soil or situation and come readily from seed.

	Doz.
Giganteum, cream white.....	.50
Grandiflorum robustum, bright yellow.....	.60
Citrinum, cream turning pink, lovely.....	.50
Johnsonii, large pink, very fine.....	1.00
Hendersonii, lavender with maroon center....	.50
Klamathensis, light lemon with pink tips.....	1.00
Parviflorum, light yellow60
Pink beauty, a fine new one.....	1.00

Fritillarias are at home in the rock garden. All but Lancelota require well-drained situation and it is good anywhere.

	Doz.
Recurva or Red Mission Bell.....	\$1.00
Lancelota, green lily	1.00
Purdyii, red	1.00
Pudica, yellow bell	1.00

Trilliums prefer shade and moist soil. Good among ferns in a shady corner.

	Doz.
Sessile Chloropetalum, large white flower.....	1.00
Petiolatum, Rubrum, opens red.....	1.00
Ovatum, opens white and changes to red. Many most beautiful shades in a clump at one time. Large	12c 1.00
Rivale, small and dainty. White specked with maroon. This is good in the rock garden as well as the moist shade.....	1.00

BOG GARDEN PLANTS

	Each
Aconitum Columbianum (36), purple monkshood	.15
Arguta rubra, white flower, red berries.....	.15
Asarum caudatum, wild ginger.....	.25
Hartweggi, mottled, not too wet location.....	.25
Lemmonii, best of all, not too wet location....	.25
Aracea lysichiton, very large plant with yellow calla-like flower. Slightly bad odor, small. Each50
Larger	1.00
Cornus Candanese (3), Bunchberry, Partridge Berry25

<i>Cypripedium Californica</i> , white lady slipper.....	.50
<i>Delphinium scopuorum</i> variety (84), deep blue flower, long spike.....	.50
<i>Gentiana Newberryi</i> , a very dwarf, large flower- ed beauty	1.00
Species, formerly listed as <i>setigera</i> . For a moist, rich soil on margin of brook or bog.	
Fine blue flower.....	.25
FOUR	
<i>Habenaria Delitata</i> (18), showy orchids, pure white25
<i>Hypericum anagalloides</i> , Tinkers Penny.....	15
<i>Lupinus Rivularis</i> , large plant with fine ornamen- tal leaves and long spike of bloom.....	.35
<i>Mimulus Lewisii</i> (18), the beautiful crimson minulus which makes such a lovely show in Crater Lake Park water gardens all sum- mer. Seeds of this.....	.50
<i>Primuloides</i> (2), very tiny yellow. Seeds only.	
<i>Luteus</i> (12), sweet-scented yellow monkey flower15
<i>Parnassia palustris</i> (12), dainty white flower.....	.35
<i>Pyrola bracteata</i> (8), beautiful glossy leaves and nice pink flowers; very acid soil required....	.25
<i>Spiranthes</i> , <i>Romanzoffiana</i> , white, twisted ladies tresses25
Mossy pumice and waterworn or lava stepping stones can be supplied. Prices on request.	

SHRUBS AND TREES

<i>Arbutus Meuziesii</i> Madrone, broad-leaved ever- green, white flower, red berries in autumn. Price30 to 1.00
<i>Arctostaphylos</i> Manzanita, evergreen shrub with beautiful bell-shaped pink flowers. Hardy to zero30
Green Manzanita, deeper pink flowers.....	.30
<i>Ura-Ursi</i> , Red Bear-berry Berries, bright red	.50
<i>Berberis</i> or <i>Mahonia</i>	
<i>Aquifolium</i> , tall Oregon grape, yellow flower, blue berry30 to \$1.00
<i>Nervosa</i> , fern leaved, for shade.....	.30 to 1.00
<i>Cornus Nuttallii</i> , Pacific dog wood. Large pure white flower. Often blooms in autumn as well as early spring.....	.30 to \$1.00
<i>Ceanothus Arboreus</i> , white flowered, broad leaved evergreen; makes small tree. Seeds only.	
<i>Ceanthus Interrigimus</i> , wild lilac, covered with dainty sweet-scented flowers of many col- ors, blue prevailing15
<i>Ceanothus Prostratus</i> , a lovely evergreen creeper, lavender50
<i>Ceanothus Prostratus</i> var., divergenus, one foot high, lavender. Seeds.	
<i>Ceanothus Pumila</i> , very flat carpenter, varied flow- ers50
<i>Grossularie Roezli</i> , fuchsia flowered gooseberry....	.30
<i>Philadelphus Lewisia</i> , mock orange, scented white flower15
<i>Rhodendron Californica</i> , beautiful state flower of Washington. We can supply fine little seedlings of these carefully handled and well packed, but cannot warrant them to	

grow. Small plants 6 to 10 inches high, at 50c each. Larger at proportional higher prices. Very good plants with soil on roots, well mossed and burlaped at, each, f.o.b.....	1.50
<i>Rosa Gymnocarpa</i> , nice little rose for rock gar- den30
<i>Spirea Opulaster</i> , nine bark, white flower.....	.30
<i>Spirea Ariaefolia</i> , Ocean Foam, Bridal Veil, lacy flower30
<i>Pachystima Myrsinites</i> , Oregon box or Mountain lover30
<i>Umbellularia Californica</i> , Oregon Myrtle, a beau- tiful trees and makes a valuable timber.....	.50
<i>Vaccinium mycophyllum</i> , a tiny huckleberry, fine in rock garden.....	.30
<i>Vaccinium ovatum</i> , evergreen huckleberry, a love- ly shrub and extensively used by florists for greens50
Seeds and seedlings of the following forest trees:	
<i>Acer Macrophyllum</i> , large-leaved soft maple.....	.30
<i>Circinatum</i> , vine maple.....	.30
<i>Abies Nobilis</i> , noble fir.....	.50
<i>Magnificum</i> , Shasta fir.....	.30
<i>Quercus Garryana</i> , Oregon white oak.....	.30
<i>Kelloggii</i> , California black oak.....	.30
<i>Wislizenii</i> , live oak.....	.50
<i>Pinus Lambertiana</i> , sugar pine, seeds only.	
<i>Manticola</i> , white pine, seeds only.	
<i>Ponderosa</i> , long-needle pine.....	.30
<i>Ponderosa</i> var., <i>Jefferyii</i>30
<i>Taxus Brevifolia</i> , Western Yew, a lovely tree for moist shade; nice for bog garden.....	.30
<i>Pseudotsuga taxifolia</i> , Douglas fir 8 to 12 inches....	.30
<i>Libocedrus decurrens</i> , Incense cedar.....	.30
<i>Picea Engelmanii</i> , good for moist soil30
<i>Chamaecyparis Lawsonii</i> , Port Orford cedar, Lawson's cypress; a beautiful tree for moist soil; shade preferred.....	.50
<i>Juniperus communis</i> , var. <i>Montana</i> . Creeping Jun- iper. Very fine evergreen for the rock gar- den75
<i>Empetrum Nigrum</i> , black crowberry, equally pretty but much slower to establish.	
<i>Artemisia tridentata</i> , Sage Brush, white-leaved and yellow flower; when pruned down makes a nice shrub for the rock garden....	.50
ROCK PLANTS NOT WESTERN NATIVES	
	Each
<i>Arabis Alpina</i> , very early white.....	.15
<i>Callirrhoe involucrata</i> , trailing, showy crimson flowers all summer; full sun.....	.35
<i>Campanula carpatica</i> (5), beautiful little hare bell25
<i>Pilosa</i> (12), long white bell.....	.25
<i>Cerastium tomentosum</i> (6), mass of silvery foli- age; white starlike flowers. Covers rapidly and blooms freely15
<i>Dianthus Alpina</i> (3), deep pink35
<i>Neglectus</i> , white lacey flowers.....	.25
<i>Granticus</i> , free and long blooming, pink.....	.15
<i>Deltoides</i> , more dwarf than above.....	.15

Gentian Sino-ornata , most intense blue in my garden. Lovely flowers freely borne all autumn50
Large75
Sedum Acre , evergreen low growing, real yellow flower15
Anglicum, cutest tiny gray mat with white flowers15
Coccinea, leaves turn red in winter.....	.15
Kamchaticum variegatum25
Stellaris, green, beady, white-flowered little one15
Serangulare, still smaller with yellow flower15
Spureum, white flowered15
Spureum coccineum, red flowered.....	.15
Veronica incana , blue flower, silver foliage.....	.25
Viola Alpina , purple everblooming, small neat plant15
Peacock, or Confederate. Long-stemmed white with blue center.....	.15
Odorata, blue, sweet-scented violets.....	.15

DWARF IRIS

	Each
Iris Alpina , deep blue, large flowered dwarf.....	.25
Pumila caynea, purple15
Prairie Gem, yellow15
Bride, white15
Stylosa speciosa, very early blue.....	.25

TALLER IRIS

	Each
Iris versicolor , tall swamp Iris from Wisconsin....	.35
Speiria monnieri, tall yellow.....	.50
Siberica, deep blue or pure white, either color25
Louisiana, native blue.....	.50
Dorothea Willimson, a wonderful blue.....	.35
German Iris—Twenty fine standard varieties without names, or 15 with names, post-paid, for	1.00

JAPANESE IRIS

	Each

Red Riding Hood, amaranthus, veined white35
T. S. Ware, reddish violet.....	.35
Zama-no-mori, white shaded with azure.....	.75

Our prices are cash with order, and we will send C. O. D. to reliable persons.

Small orders receive the same attention as large ones. Do not hesitate to write us if you only wish one item. Also, we will be interested to hear about the wild flowers growing in your locality. We make exchnages and buy desirable wild plants and seeds. We give a discount on large orders from parks, colleges, etc., and a trade discount to dealers. Write for wholesale prices.

Address all orders to **Clarice Nye, Prospect, Oregon.**
